

I am writing because I want to make sure that the FCC understands that people in my area listen to K-Love on a daily basis. We tune in to K-Love because it is not the ordinary sex talk we hear every day. We are not bombarded with dirty language, and our children benefit from listening to a positive and encouraging station. There is no 7 second delay needed because every discussion is meant to inspire, encourage, refresh and equip listeners each day. It would be a tragedy to take K-Love off the air. You would be effectively removing thousands of people's positive encouragement each day. Thank you for your time. Just the fact that K-Love is a listener supported station should show that people want it as a convenient station on their FM dial. A sincere thank you ahead of time for keeping K-Love on the FM dial.
